### PROFESSIONAL ACCREDITATIONS

- New York State Bar
- All Federal Jurisdictions of the U.S.A.
- High Court of New Zealand

### PROFILE

David is an attorney specializing in blockchain, AI, and cryptocurrency law, with expertise in smart contract enforceability, IP protection for machine learning and generative AI, DeFi and tokenization regulation, NFT and Web3 IP rights, data privacy, securities compliance, and practical solutions for crypto-integrated business formation and digital asset estate planning.

### PROFESSIONAL EXPERIENCE

#### Senior Counsel

2026 - Present

#### Hodder Law Firm, P.A. | Jacksonville, FL

- Offering a full suite of legal services to Bitcoin and cryptocurrency practitioners, including FinCEN, OFAC, state banking, and SEC compliance.
- Contract negotiation with a track record of securing advantageous terms.
- Well-versed in a range of crypto-centric areas, from Bitcoin ATMs, mining, and the Lightning Network, to hedge funds, DeFi, DAOs, NFTs, Ordinals, meme coins, and the intricacies of token sales and online betting laws.

#### Head of Business Development

2022 - Present

#### Present Cachengo | Huntingdon, TN

- Led a successful \$75 million Reg A+ tokenized offering, navigating the complexities of regulatory compliance and capital acquisition.
- Orchestrated SEC filings and investor communication compliance.
- Skillfully negotiated API agreements and MSA contracts with partners.
- Collaborated with external legal teams to formulate meticulous responses to regulatory inquiries.
- Implemented all compliance-related training videos and manuals.

#### Advisor & Consultant

2017 - Present

#### Various Blockchain Projects | Bentonville, AR

- Serving as advisor to Chronicle, EarthFund, ArtMeta, Orion Protocol, and other blockchain projects across charitable giving, NFTs, phygital, and Layer 1 ecosystems.
- Advisor and/or consultant to numerous crypto and blockchain projects in diverse fields, including charitable giving, NFT, physical-digital nexus (phygital), and Layer 1 blockchains with unique features.
- Provide input regarding different verticals within the roadmap and launch of the project, token design, tokenomics, launch strategy, and community building.
